PROFESSIONAL SUMMARY

AI-focused Full Stack Engineer with 4+ years of experience designing and building intelligent, data-driven applications across IoT, cloud, and enterprise platforms. Specialized in Generative AI, agent-based workflows, and real-time data systems using Python, React, and modern cloud technologies.

Proven ability to deliver end-to-end solutions including dynamic user interfaces, scalable APIs, and real-time data pipelines using MQTT. Strong experience in integrating AI into production systems and building interactive dashboards for data visualization and monitoring.

KEY SKILLS

- **AI/ML:** Generative AI, Agentic AI, Watsonx, ICA
 - **Programming:** Python, JavaScript
 - **Frontend:** React.js, HTML, CSS
 - **Backend:** Flask, Node.js, REST APIs
 - **Databases:** PostgreSQL, SQLite
 - **IoT & Streaming:** MQTT, Real-time data pipelines
 - **Cloud:** AWS (S3, Cognito), Microsoft Azure
 - **Tools:** Docker, Git, Grafana
 - **Enterprise Tools:** IBM Maximo Application Suite
-

PROFESSIONAL EXPERIENCE

Technical Consultant – IoT & Edge Computing

IBM India Pvt. Ltd. | Feb 2021 – Present

- Advised clients on technical adoption strategies for IoT and AI-based solutions
 - Designed and delivered scalable architectures for real-time and enterprise applications
 - Built and integrated APIs, data pipelines, and UI systems based on business requirements
 - Collaborated with cross-functional teams to deliver high-quality production solutions
-

Full Stack Developer with AI

Avantor | Retail | UPM | Financial Analyzer (UC1) | Dec 2025 – Mar 2026

- Developed AI-powered applications integrating agent-based workflows using IBM ICA and Watsonx
 - Built dynamic React-based user interfaces for real-time data visualization and automated alerting
 - Integrated AWS services (S3, Cognito) for authentication and document workflows
 - Designed backend APIs to trigger AI agents and process structured/unstructured data
 - Implemented chatbot features to enhance user interaction and insights generation
-

Full Stack Developer

NiE Project | Jan 2025 – Mar 2025

- Developed APIs and dashboards for real-time asset inspection systems
 - Built and optimized Grafana dashboards for monitoring and visualization
 - Improved system performance and reliability through testing and optimization
-

Junior Software Developer

Eleclink, India | Jul 2024 – Mar 2025

- Developed post-processing modules using MQTT for real-time data ingestion
 - Integrated database systems to process and store streaming data
 - Built APIs and dashboards for visualization of operational data
 - Led testing efforts to ensure system stability and performance
 - Improved data quality through labeling and validation processes
-

Technical Consultant

Asset Inspection – IBM Poughkeepsie (SPOT Robot) | Aug 2023 – May 2024

- Developed dynamic dashboards using IBM Maximo Application Suite
 - Managed IoT data integration and synchronization across systems
 - Implemented condition monitoring, scheduling, and asset tracking
 - Integrated systems using REST APIs for seamless communication
-

Technical Consultant

Innovation Studios – SPOT Setup | Aug 2022 – Dec 2024

- Built dashboards for device monitoring using Maximo Monitor

- Managed assets, hierarchies, and IoT data synchronization
 - Performed testing, documentation, and system maintenance tasks
 - Created reports and tracked bugs to improve system performance
-

EDUCATION

Bachelor of Technology (B.Tech) – Electronics and Communication Engineering
Rise Krishna Sai Prakasam Group of Institutions | 2020

CERTIFICATIONS

- IBM Generative AI Foundations (2025)
 - IBM Generative & Agentic AI Foundation (2025)
 - Watsonx.ai Sales Foundation (2024)
 - IBM Watsonx Essentials (2024)
 - Machine Learning with Python (2022)
 - Python for Data Science (2022)
 - Microsoft Certified: Azure IoT Developer Specialty (AZ-220)
 - Microsoft Certified: Azure Fundamentals (AZ-900)
 - IBM Certified Advocate – Cloud v1
 - Full Stack Developer – Java
-

BADGES

- Data Visualization with Python
 - IBM Garage Essentials
-

LANGUAGES

- English – Fluent
 - Telugu – Fluent
 - Hindi – Fluent
-

ADDITIONAL HIGHLIGHTS

- Strong experience in building AI-integrated enterprise applications
- Expertise in real-time data systems and IoT architectures
- Proven track record of delivering scalable and production-ready solutions
- Quick learner with strong adaptability to new technologies and domains
